SHILOH, OH 44878

Dear Readers,

This is early morning. Everyone else is still sound asleep, but not for long, including two of our grandsons, which had stayed for the night. They were part of Harvey's apple picking help. Five grandsons and three grand-daughters came yesterday afternoon to help pick apples for apple sauce today. The girls also helped a little in the garden.

Today is apple sauce day, and we have a total of 20 some bushels that us ladies and girls will do all that we can, we might

not get all of them done, but we will use turkey cookers and our electric apple sauce maker which will help, I really don't need much applesauce but some of the others do. Seems like everything is plentiful, the gardens have done well. This time of the year we just eat out of the garden. My flower garden is showing an array of colors. It is truly one of my favorite times of the year. With cool nights and warm days, it brings out brighter colors for the apples as well. Harvey kept saying all summer he thinks I have the prettiest garden ever. But when the rains started coming the weeds did too. Wonder what happened!

We have been gone a lot here lately, first to a cousin gathering in Pennsylvania. We took grandpa, 92 years old, along for a two week stay with his children in Berks County. Sounded like he had a good two weeks. Later we spent a few days with our daughters, who also live in Pennsylvania, and seen our newest grand baby. A girl, which makes number 35, Hadassah Hoover. She was greeted by two brothers and four sisters. When school starts, their two oldest girls will be school teachers,

and her little babysitters will all be back in school. Before we returned back home from this trip, Cousin David's 60 year old brother Lloyd, passed away three days after having open heart surgery, suffering from another heart attack. So we were home one night, then headed for Missouri to take David back to his mom. He is staying there for now. Don't know if he will be back for another summer or not. He had been spending summers with us for the last 30-35 years. He could do a lot of small chores around the farm, feed chickens, goats, pigeons and horses. He also pulled weeds and mowed the lawn.

Harvey and Wilson are busy sorting cattle off the pasture for market. It was a good grazing season as grass was plentiful. Usually they try two cattle per acre but this year they had to make hay on some acres to keep up with the grass.

Our nephew, his two boys, and his Amish workers have been changing the board fencing on the pastures. Putting on new boards. The old weathered boards are shipped west for siding on new homes.

Apple sauce day is now over, we did 380 quarts thanks to the electric sauce machine. After the apples were all sorted and washed, the boys were still full of energy. Harvey thought of his loaded pear tree that needed picked before the afternoon storm hits. They picked approximately 10 bushels off that one tree. That old faithful Bartlett tree is loaded every year. Looks like a good apple year as trees are hanging full. I guess making up from last year. This time last year there were no apples on our trees. Looks like we'll get to press cider this year using the late apples.

Teacher Beatrice from Pennsylvania will be coming Tuesday for another term. She stays at the other end of our house in her own living quarters. Her school parent moms and friends came over a few days ago and cleaned before she comes. They even brought a few baked goodies for her freezer.

As we approach Thanksgiving season, let's remember to give thanks in every season for God's undeserved blessings, His unconditional love, and another year to celebrate every good gift that He offers.

Happy Thanksgiving

Daydream Garden is Tim Coffey's classic print collection featuring roses, rosebuds, ferns.

As a group of fishermen relaxed in an old Scottish seaside inn, one of the men gestured widely, depicting a fish that got away. His arm struck the waiter's tray, sending its contents onto the white wall, leaving an ugly brown splotch. The innkeeper sighed, "The whole wall will have to be repainted." "Perhaps not," offered a stranger. "Let me work with it!"

The man pulled brushes, oil, and colors out of an art box. He dabbed away at the ugly splotch. An image emerged—a stag with a great rack of antlers. His signature at the bottom read: Sir Edwin Landseer. A famous painter of wildlife. In his hands, a mistake became a masterpiece! God's hands do the same. He draws together the disjointed blotches in our life.
